For Immediate release

## **New Release: ViPad – A new way of organizing your Windows Desktop**

*Free your desktop with ViPad - Windows Desktop organizer & launch pad. A new free software by Lee-Soft.com.*

Everybody that uses computers knows the problem of searching for a desktop link or often cannot find apps and files in the windows start menu. Most people have a cluttered desktop filled with lots of shortcuts and loose time with searching for that shortcut they once put on their desktop. With ViPad you can now easily organize your desktop in a cool and efficient way!

ViPad is a the ultimate Windows desktop application launch & organization tool for the windows desktop. You can organize all your windows desktop items in a second and have one click launch for all your favorite apps, games, links, files, social media friends, music and much more.

It only takes a couple of minutes to organize your desktop the first time and your set to launch all your favorite stuff in a second. Take a look to the tutorial Video to see how ViPad works.

## ViPad Features:

- Never have a cluttered windows desktop again
